
How prices of internet services evolve over time?

Scope - Initial information

Scope: The internet services included in this analysis are: **flight tickets**, **train tickets** and **hotel reservations**. More details below:

- 3 flight tickets, 2 of them low costs companies, economy, 1 passenger; go April 1st, return April 8th
 - ✦ Basel-Barcelona (1); Basel-Barcelona (2); Zurich-New York
- 3 train tickets, second class, 1 passenger; go April 1st, return April 8th
 - ✦ Basel-Paris; Milano-Roma; Amsterdam-Paris
- 3 hotel reservations, standard double room, 1 adult; check in April 1st; check out April 8th
 - ✦ Barcelona; Paris; Utrecht
- Duration of data series: started December 25th 2019, finalised March 15th 2020.
- Flight and train tickets comparing tariffs always in same timings, only changed to closest options when original timings were sold out.
- Hotel reservations changing on the service provider following the cheapest price, with the same room type and services.
- Internet web pages consulted:
 - ✦ <https://www.vueling.com/es>
 - ✦ <https://www.easyjet.com/en/>
 - ✦ <https://www.swiss.com/ch/en>
 - ✦ <https://www.sbb.ch/de/fahrplan.html>
 - ✦ <https://www.thalys.com/fr/en>
 - ✦ <https://www.trenitalia.com>
 - ✦ <https://www.trivago.ch>
- Note: The original intention was checking prices until the start date April 1st; however, prices and availability were heavily impacted by Coronavirus after March 15th.
